Cosmetic dermatology, laser, and skin surgery are one of the fastest growing branches of skin health. New drugs, methods, and tools are constantly being developed to treat various skin disorders that affect a person's health and appearance. It is appropriate for doctors, whether general practitioners, residents, or specialists, to follow these developments as part of their life-long study. Is one of the tasks for the Study Group Indonesian Cosmetic Dermatology (KSDKI), Indonesian Laser Dermatology Study Group (KSDLI), and the Indonesian Skin Tumor and Surgery Study Group (KSTBKI) as part of the Indonesian Dermatology and Venereology Specialist Association (PERDOSKI), to improve the knowledge and skills of its members as well as to disseminate knowledge to other medical circles and the general public.

In this regard, KSDKI, KSDLI, and KSTBKI under the auspices of PERDOSKI intend to hold an international scale symposium, exhibition and workshop on cosmetic dermatology, laser and skin surgery, namely the Indonesia Dermatologic Aesthetic Laser and Surgery Conference (INDALAS), in 2022. in Jakarta. This event was held with the hope of becoming a reference for doctors in Indonesia in the fields of Cosmetic Dermatology, Lasers, Tumors and Skin Surgery. In addition, the committee hopes that this event can be sustainable in the future.

WELCOME REMARKS

Greetings,
Dear All,

Hopefully we are all in excellent health condition. Since the COVID-19 pandemic, countless offline events have been cancelled. Although most scientific and social gatherings were still being held online, we kept hoping to be able to interact and meet directly in-person. Therefore, we would like to proudly announce the Indonesian Dermatologic Conference on Aesthetic, Laser, and Surgery (INDALAS), an upcoming joint event organized by the Indonesian Society of Dermatology and Venereology (INSDV/PERDOSKI), in collaboration of the Indonesian Skin Tumor and Surgery Study Group (KSTBKI), the Indonesian Cosmetic Dermatology Study Group (KSDKI), and the Indonesian Laser Dermatology Study Group (KSDLI).

This year, we expect our event to be held on November 16th - 21st 2022, at the Indonesia Convention Exhibition (ICE) BSD in Tangerang and the Indonesia Presidential Hospital Gatot Soebroto (RSPAD) in Jakarta. Realizing the worldwide advancement of technologies and competencies regarding cosmetic, laser, and skin surgery in recent years, we are constantly aware of the challenges and the urgency to provide perpetual trainings and conferences for further development of skill and knowledge. INDALAS will present as a melting pot for current and future dermatovenerologists who are seeking befitting opportunities for such purpose. By providing seminars, exhibitions, and hands-on workshops featuring national and international experts, we look forward to share the updated knowledge and the unique experiences in the fields. Lastly, we eagerly await your participation in the event and see you in Tangerang and Jakarta.

Warm regards,
dr. Abraham Arimuko, Sp.KK, FINS DV, FAADV, MARS, MH
Chairman of INDALAS 2022

GENERAL INFORMATION

EVENT DATE

Pre - Congress : Wednesday | November 16th, 2022

at Indonesia Presidential Hospital Gatot Soebroto (RSPAD)

Symposium & Exhibition : Thursday - Saturday | November 17th - 19th, 2022

at Indonesia Convention Exhibition (ICE), 08.00 - 17.00 (GMT+7)

Workshop : Sunday | November 20th, 2022

at Indonesia Presidential Hospital Gatot Soebroto (RSPAD)

Session I : 08.00 - 12.00 (GMT+7) | Session II: 13.00 - 17.00 (GMT+7)

Post - Congress : Monday | November 21st, 2022

at Indonesia Presidential Hospital Gatot Soebroto (RSPAD)

SCIENTIFIC PROGRAM

INDALAS - ADAC PRE-CONGRESS LECTURE & HANDS-ON WORKSHOP WEDNESDAY | NOVEMBER 16th, 2022

TIME	SCHEDULE
07.00 - 08.00	Registration
LECTURE	
08.00 - 09.00	Basic and principle of lasers - <i>Woraphong Manuskiatti, Thailand</i> Laser treatment for surgical scar - <i>Ratchathorn Panchaprateep, Thailand</i>
09.00 - 10.00	Picosecond laser for acne scar: A case series - <i>Inneke Jane Hidajat, Indonesia</i> Update androgenetic alopecia treatment - <i>Ratchathorn Panchaprateep, Thailand</i> The efficacy of a non-invasive 1,060-nm diode laser for fat reduction of the body - <i>Silvia Veronica, Indonesia</i>
10.00 - 10.30	Coffee Break
10.30 - 11.30	Neurotoxin in aesthetics 101 - <i>Rungsima Wanitphakdeedecha, Thailand</i> Microbotox for the treatment of enlarged pores - <i>Yuri Yogya, Indonesia</i> Men and fillers: What to do and more importantly what not to do - <i>Achmad Yudha Pranata, Indonesia</i>
Lunch Symposium	
Supported by Teoxane APAC	
Challenging Possibilities with Teosyal fillers: From dynamic aesthetic to optimizing skin quality	
Moderator : <i>Rungsima Wanitphakdeedecha</i>	
Beauty booster: Enhancing the universally accepted beauty	
<i>Inneke Jane Hidajat</i>	
Midface filler injection: The importance of structural support while preserving the facial dynamic	
<i>Achmad Yudha Pranata</i>	
11.30 - 13.00	
13.00 - 13.30	Exhibition Visit
WORKSHOP	
13.30 - 14.15	Station 4 : Monopolar RF (supported by Thermage) - <i>Woraphong Manuskiatti, Thailand and Inneke Jane Hidajat, Indonesia</i>
14.15 - 15.00	Station 5 : Fractional RF (Supported by Venus Viva) - <i>Rungsima Wanitphakdeedecha, Thailand</i>
15.00 - 15.45	Station 6 : Platelet Rich Plasma (PRP) - <i>Ratchathorn Panchaprateep, Thailand and Yuri Yogya, Indonesia</i>

- **Pre Congress will be held at Indonesia Presidential Hospital Gatot Soebroto (RSPAD) - Jakarta**
- **Workshop Session is available for dermatologist and dermatology resident only**

**Schedules are Subject to Change*
